# Study Guide Rubric

Name:

Date:

Block:

Rubric:

Category	Emerging	Developing	Proficient	Extending
<b>Content</b>	Some (less than 70%) vocab and concepts are included  Study guide is a direct copy of provided note packages  Some statements are accurate  Concepts are not accompanied with examples	Many (70%) vocab and concepts are included  Only a few parts of the study guide is written in student's own words  Many statements are accurate  A few concepts are accompanied with examples	Most (80%) vocab and concepts are included  Some information is written in student's own words  Most statements are accurate  Some concepts are accompanied with examples	All listed vocab and concepts are included.  All information is written in student's own words  All statements are accurate  Concepts are accompanied with relevant examples
<b>Organization</b>	The study guide is formatted and organized in a confusing or hard to understand way.	The study guide is formatted and organized in an understandable way.	The study guide is generally well-formatted and organized. Information is easy to follow and understand.	The study guide is very well-formatted and organized. Information is easy to follow and understand for both yourself and others.
<b>Visuals</b>	Visuals (labeled diagrams, charts, etc.) are not included in the study guide and/or graphics do not go with the accompany text or appear to be randomly chosen.	Visuals are minimally included in the study guide and/or appear randomly chosen.	Visuals go well with the text, but there are too few and the study guide seems "text-heavy".	Visuals add to the understanding of the content and are thoughtfully included.

For this study guide, I did well on...

For the next study guide, I would like to do improve on...
